

Mini symposium

Molecular and cellular mechanisms of neuronal communication

When & where

Monday 21 January 2019
11:00 – 13:00 hrs
Figdor Lecture Theatre
RIMLS Building, Route 289

Host

Nael Nadif Kasri,
Dept. of Human Genetics

Registration

Not required

Program

11.00-11.30 Corette Wierenga, Utrecht University
Dendritic coordination of excitatory and inhibitory synapses via endocannabinoids

11.30-12.00 Maarten Kole, Utrecht University
Oligodendroglial mechanisms driving cell-autonomous myelination

12.00-12.30 Wong Fong Kuan, King's College London
Murder on the cortex express

12.30-13.00 Joris de Wit, Leuven University
Specification of synaptic input properties in hippocampal pyramidal neurons
