

Description Research internship Biomedical Sciences

Attachment to studyplan BMS
(to Board of Examiners)

Radboudumc

a. Formal details of student and internship:

Studentnumber: Name:
Telephone: E-mail:

Date: (dd-mm-yyyy)
Name mentor:

Title internship:
Dutch title:

Amount of EC: EC

Internship supervisor (name, title):
Daily supervisor (name, title): (if applicable)
Host department (institution):
City:
Country:
Address, e-mail, tel. number supervisor:
Radboudumc coordinator:¹
Second assessor:²

¹ Only in case the internship is performed outside of the Radboudumc.

² Mentor, Radboudumc coordinator or another lecturer of the Radboudumc authorised for grading

b. Background / context of the enquiry:

c. Research question:

d. Design / research techniques / material / analysis:

e. Learning objectives

General learning objectives

The student

- 1 is able to describe the motive for the study, its relevance and its scientific medical context
- 2 can search, critically appraise and systematically review relevant literature
- 3 a can specify a research question or hypothesis which relates to findings discussed in relevant scientific literature
b is able to describe a study design which addresses the research question
- 4 is able to plan, organise and carry out an empirical study
- 5 is able to systematically analyse data
- 6 is able to clearly describe the results and summarise these in tables and figures
- 7 is able to address measurement errors and other limitations of collected data
- 8 is able to critically reflect upon results, design and interpretation
- 9 can write a research report (in English) which complies with the academic standards:
 - a contents: coherent, all inclusive and balanced
 - b presentation: style, appearance, lay out, word choice, references
- 10 is able to give a concise oral presentation (in English) about the study for colleagues and discuss this afterwards.

Specific learning objectives

In addition to the general objectives of each internship, the student will learn specifically to:

1.	
2.	
3.	
4.	
5.	
6.	

f. Work-plan / timetable (in weeks):

week 1-4:	
week 5-8:	
etc. etc	

It is obligatory to write a draft paper/manuscript and to give an oral presentation on your internship results.

Start date internship:

Note: do not exceed 4 pages for description
