

## Pfizer Prize for Life Sciences

---

Prize of the Koninklijke Hollandsche Maatschappij der Wetenschappen. More information about the prize can be found on the [website](#) of the KHMW.

MSc Students in Biomedical Sciences and Molecular Mechanisms may participate in this competition. Reports of all Master's research training periods are eligible.

### Procedure

- The research training period supervisor or major tutor sends a nomination form, recommendation letter, three paper versions and one electronic version of the report (pdf) to the programme contact person. *Deadline 20 September.*
- The recommendation letter highlights the innovative character of the research period.
- The contact person completes the nomination with a transcript.
- Each programme submits at most one nomination. In case more nominations are available, the programme director and programme contact person decide which nomination will be submitted.
- The programme contact person takes care of timely submission. *Deadline 30 September.*
