European Clinical Trial Infrastructures

ECRIN-ERIC

Research in pediatric population (PEDCRIN, IMI 2, PEDMED)

Prof dr. Kit Roes
Mede namens Prof. dr. Saskia de Wildt
In this age of globalisation, stratified medicine and increasing health care costs......

Clinical Trials with impact need to be increasingly:

- Multi center and multinational
- Collaborative with different stakeholders
- Innovative in design and execution
Full Member Countries: Czech Republic, France, Germany, Hungary, Italy, Norway, Portugal and Spain.

Observer Countries: Switzerland.
ECRIN-ERIC Activity Overview
ECRIN-ERIC members show increase of number of trials resulting from H2020
Pediatric Clinical Research

PEDCRIN
Paediatric Clinical Research Infrastructure Network

IMI 2
European Pediatric Clinical Trial Network

PEDMED-NL
PEDCRIN (non-industry)

- Paediatric Clinical Research Infrastructure Network
- H2020 funding

AIMS:
To bridge (non-industry) partners across Europe to combine resources and expertise to conduct paediatric clinical trials.
A pan-European Paediatric Clinical Trials Network

AIMS:
• Generate a sustainable infrastructure that optimizes the delivery of clinical trials in children
• Design, implementation and operational conduct

Substantial investment EU and Industry
Advice

Strategic feasibility groups

- Single drug
- Single/multiple PIP development
- Clinical
- Methodology
- Feasibility assessment

Requests
Added value for Network goals

- Innovative methodology experts 4.2
- Clinical experts 4.3
- Patient participation groups 4.4
