- 4.5 With regard to changes in the Agreement, the Supplier will use the same unit prices and surcharges as those contained in the Agreement unless the Parties agree or have agreed to lower unit prices and surcharges for contract extras and cancelled work.

7.6 If packaging materials are processed or destroyed by the Supplier at the request of UMC, this shall take place at the expense and risk of the Supplier.

Article 8 Title and risk of goods

8.1 The title to the Performance, as well as components of the Performance, shall pass to UMC upon delivery (of the Performance). If it has been agreed between the Parties that the Performance must first be approved by UMC, the risk will not pass until after approval has been granted by UMC. Exceptions to this are Performances delivered on the basis of Shipments on Approval or Trial, Lease, Use on Loan and Consignment.

8.2 Contrary to the provisions set forth in Article 8.1, in the instance intended in Article 6.12 the title of a goods item shall transfer to UMC at the moment the same is stored for the benefit of UMC.

8.3 Contrary to the provisions set forth in Article 10 of these Purchase Terms and Conditions, if complete or partial payment in advance has been stipulated pursuant to the payment in advance effectuated by UMC, the same shall be entitled to the title of all materials, raw materials and semi-manufactures which the Supplier uses in connection with the execution of the Agreement or which are meant for this, without a further act of delivery being required, and such up to the value of the amount paid in advance. The Supplier is held to keep said materials, raw materials and/or semi-manufactures for UMC free from encumbrances and rights, to sufficiently insure the same as also to store the same for the benefit of UMC and to indemnify UMC against loss, damage and enforcement of rights by third parties.

8.4 If UMC exchanges/returns a Performance, whether or not with accessories, the risk of this Performance shall transfer to the Supplier at the moment the Performance is put into the hands of the carrier.

Article 9 Tools in connection with delivery of the Performance

9.1 Materials, unused and/or unprocessed raw and auxiliary materials, tools, drawings, models, instructions, specifications, software and other tools rendered available by UMC or purchased or manufactured by the Supplier at the expense of UMC are the property of UMC and/or shall become the property of UMC at the moment of purchase or manufacture.

9.2 The Supplier shall beforehand deliver the Performance to UMC in which the raw materials and/or auxiliary materials and/or software rendered available by UMC or purchased or manufactured by the Supplier at the expense of UMC have been used and/or processed. Delivery beforehand takes place at the moment of use and/or processing of the raw and auxiliary materials and software in the Performance.

9.3 The Supplier is obliged to recognisably mark the materials and tools intended in Article 9.1 as property of UMC, to keep the same in a good condition and to at its own expense and risk insure the same against all risks as long as the Supplier acts as holder of said tools.

9.4 The Supplier is obliged to return the materials and tools intended in Article 9.1. to UMC not later than the last (partial) delivery to which the tools are related.

9.5 Change of or deviation from the materials and tools intended in Article 9.1 as well as the use of the materials and tools for or in connection with any objective other than the delivery of the Performance to UMC shall only be permitted following the prior written approval of UMC. This approval shall not affect the warranty obligations of the Supplier.

9.6 If applicable, the Supplier shall remain responsible for the verification of the correctness of the tools and information rendered available to the same to the extent that this is required in connection with the delivery of its Performance.

Article 10 Invoicing and payment

10.1 After the delivery of the Performance specified in the Order that UMC placed with the Supplier has taken place, the Supplier must submit an invoice per Order (per order number) unless the order indicates otherwise. In that case the invoicing terms stated in the order will prevail. The order number must clearly be mentioned on the invoice. At the request of UMC the Supplier must also mention cost centre, internal contact person or other relevant information on the invoice.

10.2 Each and every delivery and/or return shipment by the Supplier must moreover be invoiced respectively credited separately. Debit and credit entries cannot be set off on one and the same invoice.

10.5 Payment by UMC shall by no means imply the waiver of any right.

10.6 UMC shall be entitled to settle amounts it can claim from the Supplier on account of any title with the amounts the same is held to pay to the Supplier, whether or not the former are due.

10.7 UMC shall at all times be authorised to suspend its obligations on account of an Agreement if and to the extent that the Supplier (partly) fails in the compliance with its obligations.

10.8 UMC shall not pay interest costs, collecting costs or other costs for invoices if the Supplier submitted an incorrect, incomplete or otherwise incorrect invoice or if there is question of a failure in the compliance with the obligations of the Supplier.

10.9 Transaction costs related to payments (e.g. related to payments credited to foreign bank accounts) shall be for the Supplier's account.

Article 11 Quality and Warranty

11.1 The Supplier warrants that the delivered Performances comply with that which has been agreed upon, dispose of the features which have been promised and which UMC can expect, are sound and free from defects, are in accordance with the stipulated specifications and the delivered documentation, are suitable for the objective for which they are meant, are ready for use and comply

with the highest statutory requirements and other government regulations, such to also include the European legislation and regulations and regulations of lower government bodies, as also with the safety, environmental and quality standards and/or certification used within the branch, all as applicable at the time of the delivery of the Performance. The Supplier also guarantees that the Performance is unencumbered and free from attachments.

11.2 The Supplier is obliged vis-à-vis its suppliers to require that they will transfer warranty certificates and related guarantees furnished by any third parties with regard to the products supplied by the Supplier, and that they are transferred directly to UMC. The failure to provide such a guarantee certificate (or to cause same to be provided) releases neither the Supplier nor the third parties it engages from the relevant obligations. In the event of a discrepancy in the texts of warranties regarding the same product, the warranty most favourable to UMC shall apply.

Article 12 Documentation, parts and tools for the benefit of commissioning/use

12.1 Without prejudice to the provisions in Article 6.10, the Supplier warrants that all parts, auxiliary materials, accessories, tools, technical documentation, user manuals, instruction books, safety sheets and other tools (also including, but not confined to, e-learning modules) required or prescribed in connection with the realisation of the objective specified by UMC are also delivered, even if they are not specifically mentioned. In case of delivery of medical devices which must be cleaned, disinfected and sterilised, the Supplier will provide the cleaning and sterilisation instructions. Associated validation reports shall be provided on request or made available for inspection by UMC.

12.2 UMC is free in the use of these tools, such to include the duplication of documentation for personal use.

12.3 The Supplier is obliged to keep parts of goods delivered by it on stock, such to include spare parts and consumables as well as products, with regard to the delivered goods and to provide the same on demand during the usual service life (assuming circumstances of normal use, and for a minimum period of 10 years after the actual date of delivery or installation).

12.4 Without prejudice to the provisions in Article 12.3, the Supplier warrants in any event, where the Performance to be delivered concerns a medical device comprising an appliance, to maintain and service the Performance for a period of 10 years following acceptance, to the extent that instructions in that regard are issued.

Article 13 Inspection

13.1 Inspection, control and/or testing by UMC or by people or entities designated thereto by UMC can take place both prior to the delivery and during or after the delivery of the Performance.

13.2 The Supplier hereby grants access to the location where the Performances are produced or stored and lends its assistance to

the desired inspections, controls and tests and shall at its own expense supply the required documentation and information.

13.3 If necessary, the Supplier shall inform UMC in a timely manner about the time when inspection, control and/or testing can take place.

13.4 The Supplier shall be authorised to be present during the inspection, the control and/or the test.

13.5 If during an inspection, control and/or test the Performance is rejected either in whole or in part during or after the delivery of the Performance, UMC shall communicate this to the Supplier in writing.

13.6 In case of rejection of the Performance during or after the delivery the risk of the rejected Performance shall transfer to the Supplier as from the date of the notification intended in Article 13.5 of the Purchase Terms and Conditions.

13.7 Irrespective of the results of any inspection, control and/or test, if the Performance does not appear to comply with the provisions set forth in Article 11 of the Purchase Terms and Conditions and/or the Agreement, the Supplier shall on demand at its own expense repair or replace the Performance, at the sole discretion of UMC, against return of the unsound Performance, unless UMC prefers termination of the Agreement in accordance with the provisions set forth in Article 20 of the Purchase Terms and Conditions.

13.8 In urgent instances and moreover if, after consultation with the Supplier, it must reasonably be assumed that the Supplier cannot or shall not provide for the repair or replacement in a timely and proper fashion, UMC shall be entitled to carry out the repair or replacement or to have the same carried out by third parties at the Supplier's expense.

13.9 If the Supplier does not take back the rejected delivered Performance within 10 working days after the date of the written notification UMC shall be entitled to return the Performance at the expense of the Supplier and shall be entitled to a credit entry for the possibly already invoiced Performances within 14 days, all without prejudice to the other rights of UMC.

13.10 Interim inspections, controls, trials and/or tests or the lack thereof shall not affect the rights of UMC with regard to the Performance.

Article 14 Medical Devices

14.1 If and to the extent that the Dutch Medical Appliances Act (Wet op de Medische Hulpmiddelen) and the VDSMH guidelines are applicable to the Performance to be delivered this Performance and the packaging thereof must fully comply with the requirements of this act and the lower regulations based thereon.

14.2 The expiry date to be mentioned on the label in conformity with the Medical Appliances Decree [*Besluit Medische Hulpmiddelen*] must be as far from the date of delivery as possible where a period of at least 24 months must fall between the date of receipt and the expiry date.

14.3 If, at the discretion of UMC, the expiry date of the Performance to be delivered is too close to the date of delivery UMC shall be authorised to reject this Performance, unless this would be apparently unreasonable in consideration of the circumstances. Rejection of the Performance in pursuance of this paragraph shall not entitle the Supplier to any compensation for damages whatsoever.

14.4 In case of subsequent deliveries of Medical Appliances that fall under the scope of the act mentioned in this Article the Supplier must ensure that the last delivery has an expiry date which expires later, or at least on the same date, as the preceding deliveries.

14.5 The information specified in this Article as required must as much as possible be placed on the packaging in the form of pictograms.

14.6 Within no more than 24 hours after the defect in its product becomes known, the Supplier shall inform UMC in the event a Recall is necessary. This Recall shall be carried out at the Supplier's expense in accordance with the procedure which the Supplier can download from UMC's website. After being notified of a Recall by the Supplier, UMC has the option of cancelling the Agreement or Order.

14.7 With regard to the Performance concerned, the Supplier shall immediately and unconditionally cooperate in implementing the agreement pertaining to the "Safe application of medical technology in the hospital by UMC".

Article 15 Safety, environment and Corporate Social Responsibility

15.1 The Supplier accepts that it is responsible for the impact of its activities on the environment, employees and the society in which it operates. The Supplier shall endeavour to structure and formulate its own CSR policy as well as a CSR action plan, where appropriate.

15.2 The Supplier respects the universal standards with regard to labour which are elaborated in a series of conventions of the U.N. International Labour Organization (ILO).

15.3 The Supplier is willing to provide the (raw) material passport of a Product at the request of UMC.

shall not disclose the same to third parties – save third parties that are hired by the same in connection with the execution of the Agreement – without the written approval of UMC unless disclosure takes place in pursuance of a statutory obligation or a judicial order. The confidentiality obligations as laid down in this Article do not regard:

- c) information/data which the Supplier lawfully acquired and/or with which the Supplier lawfully became familiar before this information/these data was/were rendered available to the Supplier.

16.2 The Supplier commits vis-à-vis UMC to impose the obligations as laid down in the preceding paragraph on those who (such to include employees of the Supplier) are encumbered with the execution of the Agreement on behalf of the Supplier and guarantees vis-à-vis UMC that this person/these persons shall comply with these obligations.

16.3 In case of a violation by the Supplier of its obligations on account of this Article the Supplier shall forfeit an immediately claimable penalty of EUR 25,000.00 per event to UMC, which penalty shall not affect the possible obligation of the Supplier to pay compensation for damages.

16.4 The Supplier shall conform to the current, applicable regulations on data security in the healthcare sector (NEN 7510 Standard for data security in the healthcare sector) and shall ensure that the Performance delivered by it complies with this Standard and these regulations. Article 42 Quality/warranty/updates and upgrades

42.1 With regard to the ICT Performance the Supplier warrants in addition to the provisions set forth in Article 11 that:

- a) the ICT Performance also complies with the provisions laid down in this Article in case of a peak load;
- b) that the ICT Performance is efficient, coherent and sound;
- c) that the ICT Performance can be used without adjustments and is and shall remain fully compatible in combination with the existing ICT environment of UMC;

UMC shall be authorised yet not obliged to commission the new upgrades and updates. Updates and Upgrades can only be implemented after written consent from UMC.
Non-embedded Software clause: all Upgrades related to the operating system (including Windows, Unix, etc.) are included in the purchase price and will be provided and implemented free of charge by the Supplier throughout the service life of Equipment, following written approval by or on behalf of UMC. UMC is not subject to any obligation in this regard.

42.2 Without prejudice to the provisions set forth in Article 42.1 the Supplier moreover guarantees that defects in the ICT Performance shall be resolved at the expense of the Supplier for a period of twelve months after acceptance.

In these additional terms and conditions "defects" is understood as: failing or incomplete compliance of the ICT Performance with the stipulated specifications or otherwise non proper functioning of the

ICT Performance. If the ICT Performance does not comply with the provisions set forth in Articles 11 and 42.1 within a period of twelve (12) months (or the warranty period used by the Supplier, where longer) after delivery the Supplier shall on demand of UMC at its own expense forthwith yet not later than within two weeks repair or replace the ICT Performance, without prejudice to the other rights attributed to UMC on account of the Agreement or a further (maintenance) agreement deriving there from.

If the ICT Performance is replaced pursuant to this Article a new period of 12 months shall take off. If the Supplier is of the opinion that UMC cannot invoke the warranty provisions on account of the fact that a non-functioning function or a non-functioning component is not part of the guaranteed features or on account of the fact that a defect could be attributed to other causes that cannot be blamed on the Supplier, the burden of proof in connection therewith shall be borne by the Supplier.

If the Supplier does not comply in a timely manner with its obligation to repair defects UMC shall, without prejudice to its other rights, be entitled to after a prior notice in writing solve these defects personally or to have them solved by third parties at the expense of the Supplier. The Supplier shall be obliged to lend its assistance to this. In that case the Supplier shall be obliged to on demand provide the thereto required information.

42.3 If changes occur, then the Supplier must adjust the software to take said changes into account within a foreseeable period of time, that being no longer than the term by which the change in the relevant laws and regulations will enter into effect. A determination of how the costs of said changes will be shared will be made in mutual consultation.

Article 43 Documentation

43.1 The Supplier shall provide UMC with a sufficient number of copies of documentation with regard to the ICT Performance. This documentation must:

The documentation must always be supplied in a timely fashion, before or simultaneously with the delivery of the (test versions of the) ICT Performance.

43.2 The Supplier shall ensure that the documentation supplied by the same shall forthwith be replaced, revised or adjusted at its own expense if it becomes apparent at any moment in time during the use by UMC of the ICT Performance that the documentation

contains incorrect information or is otherwise incomplete, insufficient, unclear or outdated.

Article 44 Delivery, implementation/installation and acceptance test

44.1 The Supplier shall deliver the ICT Performance to UMC in accordance with the timeframe specified in the Agreement and such upon proof of release. Unless UMC expressly indicates to personally take care of this, the implementation and/or installation shall take place in accordance with the timeframe specified in the Agreement. The Supplier shall ensure that the ICT Performance is implemented and/or installed in coherence with the ICT environment already present at UMC. As part of the implementation and/or installation the Supplier shall carry out an internal company test which serves to have the Supplier determine that the ICT Performance functions well, both where the various components and the whole are concerned. As soon as, in the opinion of the Parties, the implementation and/or installation has been completed shall a certificate of implementation and/or installation be drawn up and signed by the Parties. This certificate shall not affect the provisions laid down in the Agreement and in these Purchase Terms and Conditions concerning acceptance and warranty. Unless otherwise agreed upon in writing the acceptance test shall be drawn up by the Supplier and timely be offered to UMC. The acceptance test concerns all components of the ICT Performance.

44.2 Immediately after the acceptance test an official report shall be drawn up and signed by the Parties in which possible defects displayed by the ICT Performance are established. These defects shall be solved by the Supplier at its own expense within a reasonable period of time of at most two weeks. Thereafter a second acceptance test shall be held. If the ICT Performance is then again rejected by UMC, UMC can dissolve the Agreement out of court – without any notice of default being required – with immediate effect and/or claim compensation for damages, without prejudice to the right to yet claim full compliance.

44.3 Minor defects, at the discretion of UMC, shall not oppose acceptance, without prejudice to the obligation of the Supplier to forthwith repair these defects free of charge. Acceptance of the ICT Performance shall not affect the other rights of UMC.

44.4 Without prejudice to the provisions set forth in Article 8 of these Purchase Terms and Conditions, if the ICT Performance consists of hardware the title of said hardware shall transfer to UMC after acceptance by UMC in accordance with the provisions set forth in this Article.

Article 45 Intellectual property and other (comparable) rights

45.1 Without prejudice to the provisions set forth in Article 17 of these Purchase Terms and conditions, if intellectual property rights and/or other (comparable) rights on the ICT Performance are vested in the Supplier or third parties the Supplier commits to

automatically grant (have granted) UMC a non-exclusive irrevocable (sub-) user licence for an indefinite period of time without UMC being held to pay any additional costs to the Supplier in connection therewith. To the extent that it concerns an ICT Performance in respect of which the Supplier disposes of the intellectual property rights and/or other (comparable) rights the Supplier declares to, as the occasion arises, on demand of UMC conclude an escrow agreement with regard to the source code of this ICT Performance at a company specialised in software source code escrow in the Netherlands designated by UMC and such on the basis of written terms and conditions further to be agreed upon.

45.2 Contrary to the provisions set forth in Article 45.1 of these Purchase Terms and Conditions, all intellectual property rights and other (comparable) rights on an ICT Performance specifically developed for the benefit of UMC, with the inclusion of software and the source code, the materials and documentation required for the use and the maintenance, are vested in UMC and, as the occasion arises, the rights are, to the extent that they are (shall be) vested in the Supplier, transferred to UMC by the Supplier by signature of an Agreement which transfer is, as the occasion arises, accepted by UMC immediately after the occurrence of such rights. To the extent that the transfer of these kinds of rights would require a further deed or other formalities the Supplier, as the occasion arises, already irrevocably authorises UMC to draw up this kind of deed and to sign the same on behalf of the Supplier and to fulfil these formalities also on behalf of the Supplier, without prejudice to the obligation of the Supplier to on demand of UMC lend its assistance to the transfer of these kinds of rights, without being able to impose any conditions on the same. The Supplier hereby waives all personality rights possibly allocated to the same vis-à-vis UMC inasmuch as the applicable regulations allow for this kind of waiver. The Supplier guarantees that its employees respectively contractors waive all personality rights possibly allocated to the same vis-à-vis the Supplier in the employment agreement respectively commission agreement applicable between these employees respectively contractors and the Supplier inasmuch as the applicable regulations allow for this kind of waiver.

45.3 Unless otherwise agreed upon by and between the Parties, the Supplier shall render the source code with regard to the ICT Performance developed for UMC as intended in Article 45.2 available to UMC upon the presentation for acceptance of the first version thereof or on demand of UMC. Each time changes in the aforementioned ICT Performance lead to changes in the source code the revised source code shall be rendered available to UMC. The title of the carrier of the source code is automatically transferred to UMC at the moment it is rendered available to UMC.

45.4 UMC shall be authorised to make a few back-up copies of the software delivered by the Supplier. If the former is not able to do

this due to security measures, the Supplier shall on demand render some back-up copies available free of charge.

45.5 Inasmuch as the Supplier is not personally in possession of the intellectual property rights on the ICT Performance to be delivered to UMC the same shall clearly and timely report this to UMC prior to the conclusion of the Agreement and the Supplier guarantees that it has been authorised by the rightful claimant to sublicense the relevant ICT Performance and associated documentation to UMC where the provisions set forth in Article 45.1 of these Purchase Terms and Conditions are equally applicable and – where applicable – to maintain and adjust the ICT Performance for the benefit of UMC.

45.6 The Supplier guarantees that the ICT Performance infringes, neither wholly nor partly, any intellectual property right or any comparable right of third parties. The Supplier indemnifies UMC against all (imminent) claims of third parties in connection with possible infringement(s) of intellectual property rights and/or other (comparable) rights of said third parties. In addition to the indemnification laid down in Article 17.3 in case the use of the ICT Performance delivered to UMC is prohibited in connection with an infringement of the intellectual property rights and/or other (comparable) rights of third parties the Supplier shall, at the discretion of UMC, forthwith and at its own expense:

- a) acquire a right of use for UMC on the relevant delivered ICT Performance;
- b) adjust the relevant ICT Performance such that rights of third parties are no longer infringed;
- c) replace the ICT Performance by a comparable ICT Performance with at least the same functionality which does not infringe rights of third parties;
- d) take back the relevant ICT Performance against payment of all costs paid for the ICT Performance and the implementation thereof, all without prejudice to the other rights of UMC, such to include the right to dissolution of the Agreement and the right to (additional) compensation for damages.

45.7 The transfer of any intellectual property right and/or any other (comparable) right to UMC shall not be subject to annulment upon termination of the Agreement. To the extent that UMC did not acquire the intellectual property rights and/or other (comparable) rights on the ICT Performance in accordance with the Agreement, upon termination of the Agreement UMC shall be entitled to continue its use of the ICT Performance on the basis of the acquired licence, unless it has been established in court that UMC attributably did not comply with its obligations on account of the Agreement.

Article 46 Support and maintenance

46.1 The Supplier shall render UMC and its users of the ICT Performance familiar with the use of the ICT Performance. The

support is provided by experts who are experienced and suitable for this purpose and is as much as possible provided by experts who are or were involved in the implementation and/or installation. During the term of the Agreement the Supplier shall also be willing and able to provide training to the personnel of UMC for the benefit of the use of the ICT Performance against reasonable terms and conditions and fees then to be agreed upon.

46.2 The Supplier declares to be willing to on demand of UMC maintain the ICT Performance and to for this purpose conclude a maintenance agreement with UMC. At the request of UMC the Parties shall consult with each other about the conclusion of one or more service level agreements (SLAs) in which concrete performances ('service levels') are established with regard to the ICT Performance and the maintenance to be carried out and in which sanctions are provided if the stipulated service levels are not accomplished.

46.3 The maintenance shall in any case comprise

- a) the supply of user support
- b) preservation of the ICT Performance by taking suitable preventive measures in order to enhance that the ICT Performance shall function for the term of the Agreement in conformity with the Agreement;
- c) the swift detection and resolution of failures and defects;
- d) the revision of the ICT Performance after written approval of UMC in order to increase its reliability;
- e) to change functions or to add new functions and/or to solve issues in connection therewith;
- f) and/or the regular issue of new upgrades and releases of the ICT Performance.

UMC shall not be obliged to always implement the latest upgrade or release of the delivered ICT Performance.

46.4 The maintenance takes off after the expiry of the warranty period in accordance with Article 42.2.

46.5 If a maintenance agreement has not been agreed upon UMC shall be entitled to have the maintenance activities with regard to the ICT Performance carried out by its own personnel or to have the same carried out by a third party. The Supplier shall lend its unconditional assistance to this, among other things by providing the required information and tools.
