Translational Metabolic Laboratory

Patient

Family name: _____

First name: _____

Middle name: _____

Date of Birth: DD / MM / YYYY Patient deceased: Yes, date _____

Gender: M / F

Your reference (MRN): _____

Address: _____

ZIP code and City: _____

Referring physician

Name: _____ Phone: _____

Hospital: _____ Fax: _____

Specialty: _____ Email: _____

Department: _____ CC result to: _____

Address: _____

Billing address: _____

Requested investigations

Attention! Please provide clinical data on page 2

Functional complementation of patients fibroblasts in order to obtain a molecular diagnosis

Application only after telephone / mail consultation with Dr. R. Rodenburg, phone: +31 (0) 24-3614567, e-mail: richard.rodenburg@radboudumc.nl

Turn-around time: given the nature of the application, the turn-around time is variable. After more than 6 months you will receive a progress or final report.

Patient does **not** give permission for long-term storage for any additional diagnostic or research body of this material at a later date (code 1010)

Date collected

Time collected

Protocol sample shipment

Skin / fibroblasts _____ / _____ / _____ : _____ hour [Protocol for sending skin biopsy samples](#)

Fibroblasts already present at Translational Metabolic Laboratory

Genetic information of patient

Copy of report is enclosed

Genetic analysis results if carried out elsewhere: please fill in below:

Gene name: _____

Space for tree drawing

Transcript: NM _____

Nucleotide change(s): _____

To be filled out by lab employee:

Date received: _____

Reception time: _____

Signature employee: _____

Specification of relevant results from diagnostic laboratory research

Instructions

To send Enzyme and DNA diagnostics using the relevant request form: www.radboudumc.nl/TML and www.radboudumc.nl/genoomdiagnostiek

- For detailed instructions and protocols: [Protocol for sending skin biopsy samples](#).
- Submitting fibroblasts: 25 cm² culture flask is sufficient.
- Skin biopsies must be conducted under sterile conditions and to be collected in sterile culture medium. The biopsy must be received at room temperature with requestform as soon as possible (or at least within 72 hours) after collection of the laboratory.
- For external applicants: Shipment should take place preferably on a Monday or a Tuesday, to make sure that the samples do not arrive at our lab during the weekend.
