

## REQUEST FORM Functional genomics

**Radboudumc**  
Laboratory for Diagnostics  
PO Box 9101  
Internal Post 815  
6500 HB Nijmegen  
The Netherlands

Tel : +31 (0) 24-3614777

www.radboudumc.nl/laboratoriumvoordiagnostiek

Diagnostics is performed by the  
Clinical Genetics Center Nijmegen

### Patient

Family name: \_\_\_\_\_  
First name: \_\_\_\_\_  
Middle name: \_\_\_\_\_  
Date of Birth: DD / MM / YY Patiënt deceased :  Yes, date \_\_\_\_\_  
Gender: M / F  
Your Reference (MRN): \_\_\_\_\_  
Address: \_\_\_\_\_  
ZIP code and City: \_\_\_\_\_

### Referring physician

Name: \_\_\_\_\_ Phone: \_\_\_\_\_  
Hospital: \_\_\_\_\_ Fax: \_\_\_\_\_  
Specialty: \_\_\_\_\_ Email: \_\_\_\_\_  
Department: \_\_\_\_\_ CC result to:  Referring physician  
Address: \_\_\_\_\_  Other: \_\_\_\_\_  
Billing address: \_\_\_\_\_

### Requested Investigations

**Attention! Fill out on page 2 clinical data.**

- Functional complementation of patients fibroblasts in order to obtain a molecular diagnosis.**  
Application only after telephone / mail consultation with Dr. R. Rodenburg. tel: +31 (0) 24-3614567 , e-mail: [Richard.Rodenburg@radboudumc.nl](mailto:Richard.Rodenburg@radboudumc.nl)  
Lead time: given the nature of the application, the lead time is variable. After more than 6 months you will receive a progress or final report.
- Patient does not give permission for long-term storage for any additional diagnostic or research body of this material at a later date (code 1010)

### Specimen

- fibroblasts already present on laboratory Translational Metabolic Laboratory  
 skin / fibroblasts Date collected \_\_\_\_\_

*To be filled out by lab employee:*

Date received: \_\_\_\_\_

Reception time: \_\_\_\_\_

Remarks: \_\_\_\_\_

### Genetic information of patient

- Copy rash annexed  
 Genetic analysis results if carried out elsewhere: please fill in here:

Gen name: \_\_\_\_\_

Transcript: NM\_\_\_\_\_

Nucleotide change(s): \_\_\_\_\_

- homozygous  heterozygous  compound heterozygous

Space tree drawing

Date received:  
Time:

### Specification of relevant results from diagnostic laboratory research

### Instructions

To send Enzyme and DNA diagnostics using the relevant request form: [www.radboudumc.nl/labgk](http://www.radboudumc.nl/labgk) en [www.genoomdiagnostiek.nl](http://www.genoomdiagnostiek.nl)

- For detailed instructions and protocols: [PROTOCOL SUBMITTING MATERIAL TISSUE](#)
- Submitting Fibroblasts: 25 cm<sup>2</sup> culture flask is sufficient.
- Skin biopsies must be conducted under sterile conditions and to be collected in sterile culture medium. The biopsy must be received at room temperature with requestform as soon as possible (or at least within 72 hours) after collection of the laboratory.
- For external applicants: the material is preferably on Monday, Tuesday or Wednesday at the latest submission. This is to prevent the material in the weekend at the Radboud university medical center is provided.
