

21st International Course on Reconstructive and Aesthetic Surgery of the Nose and Face

Around the Nose

June 2-4, 2021

**Radboud university medical
center**

Nijmegen, The Netherlands

Introduction

External rhinoplasty, Transposition flaps, Nasal reconstruction, Otoplasty, Blepharoplasty, Brow lift, Mentoplasty and Rhytidoplasty.

These techniques are explained step by step by a multidisciplinary international faculty of experts.

After each presentation you will practice a technique hands on.

Instead of employing chemicals to preserve bodies, the bodies are fresh frozen and brought to room temperature, providing the feel and texture of facial soft issue.

You will be practicing the techniques with only two participants per body.

We are looking forward to meeting you in Nijmegen, The Netherlands.

Dr. Koen Ingels and Dr. Niels van Heerbeek,
Course directors
