

# Meet the Expert

## Recognition & Rewards

What's in it for me?

## Dagmar Eleveld-Trancikova

### When & where

Thursday 20 May

13:00 – 15:00 hrs

Online meeting

Registration required via  
[www.rimls.nl/agenda](http://www.rimls.nl/agenda)

### About

Current societal challenges demand for more cooperation by a multidisciplinary approach for scientists. The Dutch Recognition & Rewards program aims to make room for everyone's talent in academia. The modernization should be designed to improve the quality of each of the key areas: education, research, impact, team science, leadership and patient care.

### What to expect from this workshop?

In this workshop we will discuss the (inter)national developments and in an interactive debate answer questions like: What's in it for me? Will it influence my career? Should I get involved? When will this be implemented? How should I build my CV?
