

# Meet the Expert

## Proteomics: From sample prep to data analysis

### Pieter Langerhorst

#### When & where

Tuesday 18 February 2020  
13:00 – 15:00 hrs  
De Pont A room  
RIMLS building, route 290

Registration required via  
[www.rimls.nl/agenda](http://www.rimls.nl/agenda)

#### Future data 2020

10-03 Pipetting for beginners  
24-03 Laser microdissection  
23-04 Fiji  
12-05 RNA sequencing  
09-06 Translation of data

More data see website

#### About:

Are you planning a proteomics experiment? And want to know more about the sample prep or data analysis? Curious how proteomics or protein analysis by MS can aid you in your research?

This “Meet the Expert” meeting will give you the opportunity to address your questions in an informal setting with a colleague, who has been working with proteomics/MS related equipment in a clinical setting.
